# READING CROSSROADS STRUCTURED READ-ALOUD & VOCABULARY

RESEARCH-BASED & ALIGNED WITH COLLEGE & CAREER READINESS STANDARDS

The **Reading Crossroads Structured Read-Aloud & Vocabulary Curriculum** is a scripted curriculum that includes over 100 lesson plans based on popular award-winning children's books. Each lesson plan includes vocabulary words with kid-friendly definitions, and comprehension strategies and questions that correspond with each level of the Depth of Knowledge Chart. It also includes activities and fun games that allow readers to practice newly introduced vocabulary words and exciting comprehension activities that encourage a deeper level of understanding of text.

GET MORE OUT OF READING ALOUD

Read-alouds are fun and enriching activities for children. They expose young readers to oral language, model fluency and help develop a love for reading. However, read-alouds can do much more. Adding structured vocabulary and comprehension strategies to a read-aloud enhances its educational impact. Structured read-alouds transform general enrichment into science-based reading interventions.
