

WHAT ARE LITERACY KITS?

Literacy Kits are family-friendly examples of how reading to a child should be so much more than just reading a book. The kits provide a popular children's book, along with an easy-to-follow lesson plan that demonstrates what families should be discussing when reading to a child. From author and illustrator to comprehension questions, then on to fun and engaging activities to support the book, parents can develop a familiarity and comfort with reading to or with their children. Instilling the love of reading in a child is one of the greatest gifts anyone can give.

RESEARCH-BASED LESSON PLANS

Included in each Literacy Kit are lesson plans that were developed using the Depth of Knowledge Chart, which is directly aligned with College & Career Ready Standards. This ensures children are giving more thought to what they are reading than just responses from memory. It encourages them to think in different ways and engage critical comprehension strategies when reading. These skills become crucial as children move further in their education, and in life.

"Show me a family of readers, and I will show you the people who move the world."

• **Comprehension Questions**

○ Question 1

What kind of a bear was Bruce at the beginning of the book? Explain

○ Answer

He was a grump. He didn't like anything or anyone.

○ Question 2

Why did the goslings think that Bruce was their mother?

○ Answer

He was the first thing they saw when they hatched, so he was imprinted on their mind as being their mother.
